

Lavo+

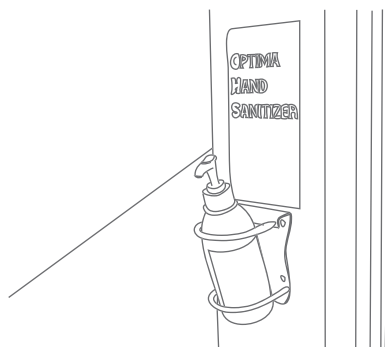

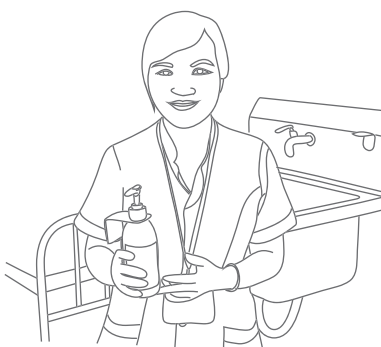

Antimicrobial Hand Sanitizer

LifeKit by **MTTS**

LAVO

An effective **germ-killing hand sanitizer** with a **skin-friendly** formulation.

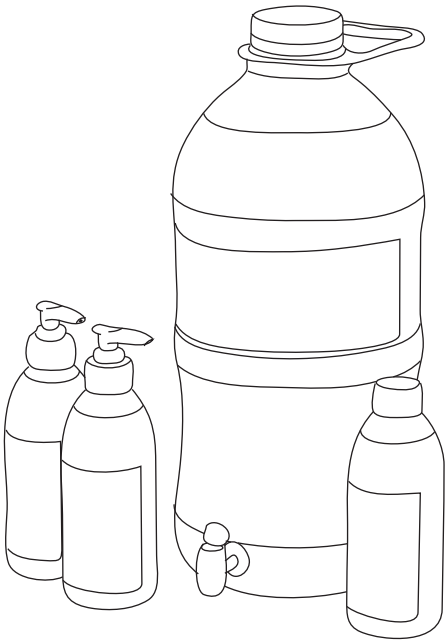

Overview

Health care-associated infection (HCAI) is a major problem for patient safety and pervades every health-care facility and system around the world. Failure to perform appropriate hand hygiene is considered the leading cause of HCAI and spread of multi-resistant organisms. Its prevention must be a top priority in all neonatal care settings. LAVO is a next-generation hand sanitizer that provides proven prevention against a wide range of microorganisms.

The LAVO kit includes:

- 1. Dispenser bottles (400 mL)
- 2. Dispenser bottles (50 mL)
- 3. Container bottles (10-20 L)
